This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

BIENNIAL REPORT

OF THE

SECRETARY OF STATE

OF THE

STATE OF TEXAS. Dept. of state

1906.

OGDEN K. SHANNON,
SECRETARY OF STATE.

AUSTIN, TEXAS:
VON BOECKMANN-JONES COMPANY, PRINTERS
1907.

REPORT OF SECRETARY OF STATE.

Austin, Texas, ...

To His Excellency, S. W. T. Lanham, Governor of Texas:

I have the honor to submit herewith the biennial report of this Department for the years beginning September 1, 1904, and ending August 31, 1906, noting the transactions and receipts of the Department during the time indicated, and, in addition, embracing the returns of the general election held Tuesday, November 6, 1906.

The period of time from September 1, 1904, to April 26, 1905, is included in the administration of my predecessor, the Hon. J. R. Curl, whose death occurred on the last named date, but having served with him as Chief Clerk of the Department, I am familiar with the transactions of the Department for that time, and include a resume of same herein.

RECEIPTS OF DEPARTMENT.

There were 2534 domestic corporations formed during the fiscal years beginning September 1, 1904, and ending August 31, 1906, and 127 permits granted foreign corporations, an increase of 608 domestic charters over number formed during the two previous years, and of 7 permits granted foreign corporations.

While a large number of corporations were relieved from the payment of further franchise tax by the Acts of 1905, the larger volume of business done has caused the receipts of the Department to increase from $441,169.88 for the two fiscal years ending August 31, 1904, to $603,566.75 for the years beginning September 1, 1904, and ending August 31, 1906, a net increase of $162,396.87.

Your attention is respectfully called to the tabulated statement herein, showing in detail the receipts and deposits for the years indicated.

EXECUTIVE CLEMENCY.

From the records of the Department I find that during the period of time embraced in this report, you have granted pardons in 234 felony cases, and remissions of fines and imprisonment in 110 misdemeanor cases.

You have also granted restorations to citizenship in 325 felony cases after term of imprisonment had expired; and have commuted the sentence of death to life imprisonment in one case. Restoration in one case and pardon in one case has been revoked.

APPROPRIATION FOR PUBLISHING CONSTITUTIONAL AMENDMENTS.

In accordance with the provisions of law, the three proposed amendments to the State Constitution submitted by the Twenty-ninth Legis-

lature were published in 225 weekly newspapers of the State. The Legislature failed to make sufficient appropriation to pay for said publication in full, there yet being due and unpaid bills to the amount of $1622.40. I beg to request your Excellency to suggest to the Thirtieth Legislature the necessity of a further and prompt appropriation to pay the above indebtedness.

RECOMMENDATIONS.

REQUISITES FOR CHARTERS.

I earnestly repeat the recommendation of my predecessor, "that Article 643, Revised Statutes, the present law prescribing the requisites for a charter in this State, be so amended that a charter, when presented to the Secretary of State for filing, shall show, in addition to what is now required, as follows: First, the place where the principal office of the corporation shall be kept, and providing that the secretary of the corporation shall reside at such principal office and shall keep the books of the company at such place. Second, the number of its directors or trustees, and the names and postoffice addresses of those who are appointed for the first year, and providing expressly that a majority of such directors or trustees shall be resident citizens of the State of Texas." And I further recommend that Subdivision 56, Article 642, be so amended as to require 50 per cent of the capital stock of a corporation to be paid in before it is authorized to do business in this State.

ANNUAL REPORT OF DIRECTORS.

"I recommend that Articles 655 and 656 of the Revised Statutes of 1895, providing for annual elections of directors, be so amended as to require that, when directors or trustees are elected, and the president, secretary and treasurer are chosen, there shall be a report made annually to the Secretary of State, subscribed and sworn to by at least two of the directors or trustees, showing the names and postoffice addresses of the directors or trustees so elected and the president, secretary and treasurer so chosen."

DISSOLUTION OF CORPORATIONS.

There being no statutory method providing for the voluntary dissolution of corporations, I suggest that Article 680 of the Revised Statutes be so amended as to provide for such voluntary dissolution, by the unanimous vote of all stockholders, after the debts of the corporation have been paid. The action of the stockholders should be certified to the Secretary of State, together with evidence showing payment of debts.

DECREASING CAPITAL STOCK.

I am of the opinion that it would be wise to enact some statute authorizing a domestic corporation to decrease its capital stock under certain safe conditions.

COURT REPORTS.

The greatest inconvenience and dissatisfaction has been caused by the State's inability to have printed, in accordance with contract, the various court reports. Acting for and on behalf of the State, in pursuance of Joint Resolution No. 12 of the Twenty-seventh Legislature, the State Board of Public Printing, on the 17th of September, 1901, entered into a contract for the publication of the court reports for a period of twenty years, which contract, had it been adhered to, would have proved of great benefit to the State. The contractors have, however, signally failed to comply with their agreement, and every effort of the Board of Public Printing to secure the fulfillment of the contract has been without avail. In this connection, I desire to say, however, that in my opinion the contract referred to is financially impracticable and impossible of execution without great loss to contractor.

It is highly important that the Thirtieth Legislature adopt some plan that will secure the prompt publication of these reports, and with a view of placing the subject properly before them, I have deemed it appropriate to note briefly the various methods heretofore adopted by the State.

The first plan adopted and pursued prior to 1882 required the official reporter to print, publish and sell the reports on his own account—the State purchasing from the reporter the number of volumes required by it, the price being varied from time to time under the different laws enacted upon the subject. At the time of its repeal in 1882 the reporter was required to furnish the State four hundred copies of each volume, his compensation therefor being $3 per page for each page contained in one volume, and the proceeds of his sale to the public at $6 per volume. (5 Gammel's Laws, 1107; 8 Gammel's Laws, 122.)

Under the second plan, by an Act of the Seventeenth Legislature, passed in 1882 (General Laws, page 8; 9 Gammel's Laws, 267), the State of Texas for the first time assumed the burden of selling these reports on its own account. This law required the reporter to print and furnish the State 1000 copies of each volume, for which he was paid for reporting and printing $5.50 per page for each page contained in one copy of such volume. These reports were sold by the State at $4 per copy.

The third plan of publication was inaugurated by an act passed by the Twenty-first Legislature in 1889 (General Laws, page 7; 9 Gammel's Laws, 1035). This law provided that the reporter should receive a salary of $3000, and that the reports should be printed by contract, as other State printing. The price at which they were to be sold to the public by the State was fixed at $2 per copy.

The fourth and last plan of printing and publishing the reports is that referred to in the beginning of this subject, and provides that the contractor print, publish and sell at $2 per copy said reports to the general public, and to supply the State such number as it may need for its own use and free distribution, not exceeding three hundred volumes (General Laws, 1901, p. 328), the State giving three hundred volumes of reports previously printed in exchange for plates.

Under the fourth and present plan, the Court of Criminal Appeals reports were printed up to March, 1904; the Court of Civil Appeals

reports to October, 1904, and those of the Supreme Court to May, 1905, when publication was stopped by the contractors, notwithstanding copy had been prepared and handed them for subsequent volumes by the reporters.

PUBLIC PRINTING.

The public printing of this State is executed by the contract system, under a law that was drafted when the amount of printing was inconsiderable and could be done with the proverbial hatful of type and the old army hand press. Times have changed, and with the advance of the art preservative, and the increase in the amount of public printing, the law has proved inadequate, and, in the interest of the public service, it has been necessary to assist it with customs of the trade and adapt it as near as may be to existing conditions. The introduction of typesetting machines and the adoption of the point system having completely revolutionized the printing business, renders it important that the entire title regulating public printing be revised.

While not prepared at the present time to recommend an amendment to the Constitution authorizing the establishment of a State printing office, it is a question that should receive serious consideration, in view of the fact that the volume of public printing required two or three months prior to and during the sessions of the Legislature, now renders necessary the use of more machinery than our largest commercial houses possess, or, as a business proposition can afford to supply for that portion of a two-year contract even at the maximum rates allowed by the present law.

The State Expert Printer occupies an anomalous position, owing to the inconsistency between the Revised Statutes and the appropriation bills for the last several years. Article 4222 authorizes the employment of a practical (expert) printer at not to exceed $75 per month, who shall ex-officio be instructor of printing at the Deaf and Dumb Asylum. Article 4219 names the printing board and Article 4220 designates as its secretary the Secretary of State. The appropriation bill carries $1500 annually "for salary of expert printer and secretary of printing board," and $720 annually "for instructor of printing," the same being two offices and filled by two men.

I am of the opinion that so long as the contract system prevails, no specific sum should be appropriated for salary of expert, but the printing board should be authorized to employ an expert, and, from time to time, such assistants as may be required to fully protect the State's interests and to pay out of the public printing fund such sums as may be necessary to secure such services.

NOTARIES PUBLIC.

I recommend that Articles 3516 and 3517, Title 73 of the Revised Statutes, be so amended as to authorize the Secretary of State to forward each county clerk a list of the notaries public appointed and confirmed and make it the clerk's duty to notify each appointee, and return to the Secretary of State a list of those who have qualified and are entitled to commissions.

COMMISSIONS.

Article 2439, Revised Statutes, as amended by the Twenty-ninth Legislature (see Chapter 91) should be further amended so as to prescribe a penalty against each officer who fails to take out his commission as required therein, or else the provision relating to commissions should be stricken out entirely.

As the law now stands, a number of officers comply with its requirements and take out their commissions, but a majority of all the officers elected and appointed fail to do so.

STATE TAX BOARD.

By an Act of the Twenty-ninth Legislature, providing for the taxation of certain intangible assets, a State Tax Board was created consisting of the Comptroller of Public Accounts, Secretary of State, and a tax commissioner to be appointed by your Excellency.

I shall not here suggest any improvements in the law, except as it relates to the personnel of the board.

In my opinion, if this law is to remain in our statutes, it should be so amended as to provide for the appointment of the entire board by the Governor, two members of the board to sit with the Tax Commissioner so long as their services are required, and be paid a salary from the public treasury. It is a physical impossibility for the Secretary of State to discharge the official duties devolving upon him in the Department of State and at the same time devote the attention necessary to act intelligently on such important matters as taxation of tangible or intangible assets. Being under bond for the faithful performance of the duties of this office, and receiving daily during the time the tax board was in session thousands of dollars of public moneys for which I was accountable to the State, I was precluded from giving but a mere fraction of the time and assistance to the Tax Commissioner that he should have had.

FRANCHISE TAX.

Under the Act of 1897, insurance, fidelity, guaranty, casualty and bonding companies were required to pay a certain annual franchise tax on or before the 1st day of May. A number of these corporations, during the early part of the year 1905, preceding May 1st, and prior to the passage of certain laws by the Twenty-ninth Legislature exempting this class of corporations from the payment of said tax, paid into this Department the amounts demanded under the Act of 1897. The law making the exemptions referred to was effective March 1st. There was approximately $25,000 so paid in which should be refunded, and I accordingly recommend that appropriation be made to this end. A list of the companies paying can be furnished the proper committee on request.

CONCLUSION.

In conclusion I desire to say that, by close attention to duty, personally given, the loyal support and help from my chief clerk, Mr. Henry

Hutchings, as well as each assistant clerk, I have been enabled to so systematize the work required of the Department, that the present force though small in number, is capable of executing with care and expedition all demands made of them. All letters are answered the day of receipt and the public given the service it should reasonably expect.

It has been my earnest and constant endeavor to administer the affairs of this Department in a manner satisfactory to all and deserving of the unlimited confidence and support you have so generously given me.

O. K. SHANNON,
Secretary of State.

San Marcos Valley Interurban Railway To construct a standard gauge railroad, beginning in or near the city of Luling, in Caldwell county, and running along the San Marcos river up said valley through the counties of Caldwell and Hays, near or into the city of San Marcos, a distance of about 24 miles.	San Marcos	$ 506,000	May 1, 1905	50
Rockland, Jasper and Northeastern Railway Co. To construct a standard gauge railroad from the town of Rockland, county of Tyler, in a northeasterly direction in Tyler county, to and across the Neches river into Jasper county, thence in a southeasterly direction in Jasper county, to the town of Jasper, a distance of about 25 miles.	Rockland	100,000	June 17, 1905	50
Beaumont and Great Northern Railroad To construct a standard gauge railroad, beginning at Trinity, Trinity county, on International and Great Northern, thence in a southeasterly direction from Trinity to Onalaska, in Polk county, thence in a southeasterly direction from Onalaska to or near the city of Livingston, a distance of about 37 miles.	Onalaska	370,000	June 22, 1905	50
Gainesville, Whitesboro and Sherman Railway Co. To construct a standard gauge railroad from the city of Gainesville, Cooke county, in an easterly direction through Whitesboro, Grayson county, to Sherman, Texas, a distance of 32 miles, through the counties of Cooke and Grayson, and in addition thereto such railroad may extend within the corporate limits in the above named cities, and over and along the streets of said cities, a distance of from one to three miles.	Gainesville	500,000	July 3, 1905	50
Galveston Terminal Railway Co. Constructing and operating a railroad and railway terminals within and near the city of Galveston. To begin on the eastern shore of Galveston bay, in Galveston county, at or near lots numbered 525 or 522, in section 1, of Galveston Island, and shall run in an easterly direction in the county of Galveston, to the western limits of the city of Galveston, and then into and through said city upon, along and across such streets, avenues and alleys of said city along or across which a right of way, which has been or may hereafter be granted, and upon or across such lots or blocks of ground in Galveston which said railroad may purchase or acquire by condemnation or otherwise.	Galveston	25,000	Aug. 29, 1905	50
Gulf, Santa Fe and Northwestern Railway Co. To construct a standard gauge railroad from a point at or near the city of Brownwood, in the county of Brown, thence in a general northwesterly direction through the counties of Brown, Coleman, Callahan, Taylor, Jones, Fisher, Stonewall, Kent, Dickens, Crosby, Floyd, Hall, Lamb, Bailey and Parmer, to a point on western boundary of the State of Texas, at or near the point where said boundary is intersected by the railroad of the Pecos and Northern Texas Railroad Co., a distance of about 350 miles; at or from a point near Canyon, in the county of Randall, thence through the counties of Randall, Swisher, Hale and Lubbock, to a point on the southern boundary line of Lubbock county, a distance of about 125 miles.	Amarillo	475,000	Sept. 13, 1905	50
Wichita Valley Railroad Co. To construct a standard gauge railroad to commence at a point at the western terminus of the existing Wichita Valley railroad, at or near the town of Seymour, in Baylor county, and running thence in a southwesterly direction through the counties of Baylor, Knox, Haskell and Jones, to the town of Stamford, in the county of Jones, a distance of about 60 miles.	Seymour	200,000	Oct. 12, 1905	50

Texas, New Mexico and Pacific Railway. To construct a standard gauge railroad from a point at or near McKinney, Collin county, running in a general westerly or northwesterly direction through a portion of Collin county, and through the counties of Denton, Wise, Jack, Young, Throckmorton, Haskell, Stonewall, King, Dickens, Crosby, Lubbock, Hockley and Cochran, to a point at or near the northwest corner of survey No. 11, in block "Y", of public school lands in Cochran county, being a distance of, to-wit: 375 miles or less.	McKinney		Oct. 4, 1905	50
Houston, Sabine and Red River Railway Co. To construct the proposed railroad from Houston, Harris county, to a point at or near Burr's Ferry on the Sabine river, in the county of Newton, and through the intermediate counties which it is proposed to construct the same, are Harris, Liberty, Hardin, Tyler and Jasper.	Houston	500,000	Oct. 24, 1905	50
West Texas and Northern Railway Co. To construct a standard gauge railroad from a point at or near the town of Kerrville, in Kerr county, in a northwesterly direction through and to the following counties in the State of Texas: Kerr, Gillespie, Kendall, Mason, Menard, Concho, Tom Green, Coke, Sterling, Glasscock, Howard, Martin, Dawson, Lynn, Lubbock, Hale, Swisher, Randall, to a point at or near the town of Amarillo, in Potter county, being a distance of about 450 miles.	Big Springs	500,000	Nov. 8, 1905	50
Burr's Ferry, Browndel and Chester Railway Co. To construct a road from a point at or near Burr's Ferry on the Sabine river, in the county of Newton, in a generally western direction through the counties of Newton, Jasper, Sabine, San Augustine, Angelina and Tyler, to a point at or near old Peach Tree village in said county of Tyler, and to a junction at or near said village with the Trinity and Sabine branch of the Missouri, Kansas and Texas Railroad Co., a distance from said Burr's Ferry about 80 miles.	Browndel	80,000	Jan. 2, 1906	50
Brownsville, Hidalgo and Northern Railway Co. To construct a standard gauge road from Brownsville, in Cameron county, through Cameron county and the counties of Nueces, San Patricio, Refugio, Goliad, Victoria, Jackson, Lavaca, Wharton, Colorado, Austin, Fort Bend and Waller, to the city of Houston, in Harris county, a distance of about 330 miles. With the following brancnes, beginning at a point on main line from southern corner of Lavaca county, and running through DeWitt, Gonzales, Guadalupe and Comal counties to San Antonio, a distance of about 90 miles. From a point near Rudolph, Cameron county, through Hidalgo county to Sam Fordyce, a distance of about 55 miles. From near Brownsville and running to the city of Hidalgo, a distance of about 50 miles. From within 3 miles of Brownsville, in an easterly direction to the northern shores of Brazos Island, in Cameron county, a distance of about 25 miles, making a total distance of main line and branches of about 550 miles.	Brownsville	600,000	Jan. 17, 1906	50
Abilene and Northern Railway Co. To construct a road commencing in Jones county at a point on the line of the Kansas City, Mexico and Orient Railroad, at or near the town of Hamlin, and running in a southeasterly direction and through the town of Anson, in Jones county, thence in a southeasterly direction through the counties of Jones and Taylor, to the town of Abilene, in Taylor county, thence in a generally southern direction through the counties of Taylor, Runnels, Coleman, Concho and McCulloch, to the town of Brady, in McCulloch county, a distance of about 100 miles, and with branches beginning at or near the town of Anson, in Jones county, and running thence in a northerly direction to the town of Stamford, in Jones county, a distance of about 15 miles.	Abilene	200,000	Feb. 5, 1906	50
Gulf, Brownwood and Cisco Railway Co. To construct a road from a point at or near the city of Brownwood, in Brown county, in a northerly direction through parts of the counties of Brown and Eastland to a point in or near the city of Cisco, in Eastland county, a distance of about 55 miles.	Brownwood	61,000	Feb. 16, 1906	50
Galveston, Beaumont and Northeastern Railway Co. To construct a line from Beaumont, Jefferson county, in a northeasterly direction through Orange, Jasper and Newton counties, to a point on Sabine River, at the northeast corner of Newton county, on the east line of Newton county, a distance of 100 miles.	Beaumont	100,000	Mar. 14, 1906	50
